Our jobs involve developing, maintaining and integrating state of the art, mission critical solutions for Enterprise Content Management Systems in an international context for a leading European Insurance Group.

You will work as part of a multinational group with true, large, enterprise-wide systems, complex architectures and real life constraints (speed, performance, nonstop systems availability and enhanced security and data protection).

### Job brief

You are going to be part of a young and fun team which designs and implements enterprise level solutions, after they have been identified and analyzed by dedicated business analysts. You will also travel in Europe (Vienna) for training and project meetings.

### Main responsibilities

- Develop new JEE web applications, as well as back-end solutions
- Secure applications against hacking attacks and data theft
- Devise and run complex simulations to tests application under high user load
- Perform application maintenance (implement change requests, fix bugs)
- Perform development tests (Unit Testing)
- Adopt and support suitable best practices within the technology domain

## Required skills

- Good knowledge of OOP concepts
- Good Java core knowledge
- Web concepts – hands on experience: HTTP, JavaScript, HTML, CSS
- Knowledge of Java Enterprise Edition
- Strong social skills, good communicator both orally and in written form
- Effective team player in a corporate environment
- Fluent in English (both spoken and written)

## Desirable skills (nice to have)

- Strong interest in clean design and architecture of large-scale software systems
- Knowledge of the following frameworks: Struts, JSF
- German language skills

## Compensation & benefits

- Very stable work environment, as part of large Banking and Insurance Multinational Group
- Flexible work program, respecting your own private time
- Full-time, unlimited employment contract
- Attractive remuneration package
- Lunch tickets
- Private pension and health insurance
- Extra vacation days
- Exchange of experience and training with international professionals, as a premise for personal development
- Career development opportunities
- German language courses
- Contribution to sport activities
- Team building events held both in Romania and Austria
- Great workplace, central office location in a green and quiet area, great city view etc.
